Model 'A' Ford Cast Iron Brake Drums

You supply us with your old complete drums (or just the hubs) and you will receive a finished set of drums. The drum can be removed from the hub, therefore not disturbing the front wheel bearings or the rear axle taper.

Pictured at left, is a fully machined front drum ready for you to fit to your vehicle.

We fit your hubs to the cast drums, and supply finished drums ready to install on your vehicle.

<u>With this method</u>:

- **All hubs are fitted with new studs.**
- **Drums are not supplied with a bearings, races or grease seal.**
- **$485.00 per front finished drum.**
- **$485.00 per rear finished drum.**

OR

- **Front drums on their own, $340.00 ea.**
- **Rear drums on their own $346.00 ea.**

Bonded brake shoes can be supplied at $30.00 each if required. Exchange.

Bonded Emergency bands at $75.00 ea. Exchange.

<u>Please be aware.</u>

Your hubs are only as good as you give.
If your hubs arrive in an unacceptable condition, extra costs will be involved to bring them up to an acceptable safe standard. <u>This cost can be considerable.</u> You will be advised in advance of any extra costs before proceeding.
